Important update about ANALYTICA 2020:

we had booked our space for the Analytica 2020 fair (booth A3/131, together with our partners SepaChrom Srl). Since Analytica 2020 will only take place in a virtual way, we have decided not to participate in this way.

But we will be glad to organize direct video-meeting sessions with all of you interested in order to answer all your questions about our products lines and to deepen our business relationships together.
